

CW_ 26/04/21

Q. Fill in the gaps with suitable word.

All species are important for maintaining ecological balance. If one is lost, the whole natural environment gets (a) **imbalanced/ changed**. We should, therefore, (b) **save** our wildlife to protect the environment from being (c) **destroyed**. Many countries are now taking action to protect their (d) **endangered** wildlife. Mankind must develop a (e) **sanctuary** for wild creatures and must ensure that they will not (f) **be perished**. (g) **Destroying** wild creatures means destroying ourselves. It is high time we (h) **saved** them. Love for animals (i) **means** love for (j) **mankind**.

**** It is time you studied more.**
